

PERIOLOGIX

THE PROGRAM

A comprehensive Dental Hygiene Program that will change the way you and your patients look at Periodontal care

PerioLogix is a comprehensive Dental Hygiene Program that focuses on the treatment of periodontal disease. Assessment, treatment planning, and periodontal therapy are examined in detail to ensure your team provides the optimum in periodontal care. In order to provide maximum benefits for your patients, the program also focuses on implementing effective systems, improving communication skills, and increasing acceptance of major restorative treatment. All combined, this program results in increased production.

THE BENEFITS

...for the patient

- Increased knowledge of their periodontal status
- Commitment to take responsibility for their oral health
- Comprehensive periodontal treatment
- Improved periodontal care

...for the team

- Increased scheduling of appointments and fewer failed appointments
- Maximized results from working more effectively together
- Established and reliable systems that reduce stress

...for the hygienist

- Enhanced technical and communication skills
- Increased team understanding and support
- Production goals met
- Patients become co-therapists and the Practice's ambassadors

...for the dentist

- High performance team
- Delighted and enthusiastic patients
- Patients enrolled in life-time treatment
- Increased patient acceptance of comprehensive treatment
- Increased production

PERIOLOGIX GOALS

To provide the latest information on periodontal care.

- To assist team members in developing a dynamic philosophy for the Hygiene department.
- To enhance each team members knowledge of periodontal disease.
- To utilize Hygienists to their maximum potential.
- To improve the teams' ability to communicate effectively both with each other and with patients.
- To use case types for assessment, treatment planning, and periodontal therapy.
- To maximize the profitability of the Hygiene department.
- To assess and monitor the effectiveness of the Hygiene department.

Enroll today and take the first step towards a more productive, effective, and rewarding Hygiene practice.
