

TEAMLOGIX

Building Your Peak Performance Team

A practical guide to help you optimize the effectiveness of your team

The most successful dental practices create an environment that consciously and consistently attracts and retains peak performers. How do they do it? The environment must be tough enough to encourage people to consistently do their best, loose enough to give them freedom to excel at their work, and the opportunity to experience profound personal and professional growth! Only then can everyone succeed!

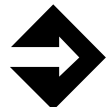

TeamLogix gives Dental Practices the information they need to seamlessly integrate, accurately measure, and directly align human resource activities with Practice culture, financial objectives and strategic intentions.

From Interviewing to Orientation and Training to Performance Development and Retention, TeamLogix will help you build *your* high performance team.
